

AMETHYST BIO-MAT

By Debbie Shkuratoff

The Amethyst Bio-Mat can be used by professionals or at home. It has leading edge Bio-Technology to support health and well-being. It is a Negative Ion and Far Infrared Ray Therapeutic Treatment System. The Bio-Mat is a unique innovation in bio technology, containing seventeen different layers and more than thirty pounds of amethyst crystals that naturally produce and are super-conductors of Far Infrared Rays. When the Bio-Mat is turned on, pulses of energy radiate through the layers, which penetrates the body up to six inches through the skin to the muscles, blood vessels, nerves, joints and bone. It relieves tension and pressure, expands blood vessels to carry away toxins, reduces inflammation and brings nutrition to damaged areas. It also has a special function that generates a discharge of negative ions into the air and transforms positive ions inside the human body. This process changes the acidic condition of the body to alkaline, which is its natural, healthy state. Negative ions are shown to be the master power switch, which activates the body's cellular system and makes every body function work better. Laying on the Bio-Mat for half of an hour to an hour feels warm and soothing. It reduces stress and fatigue, eases joint pain and stiffness, improves the immune system, removes toxins and speeds recovery. Relax in a tranquil setting and feel rejuvenated while the Bio-Mat does the work.

Debbie Shkuratoff is the owner/practitioner of Reiki Wellness and The Zen Room.
